

# Data Analyst – Job Description

**Company:** Mind Computing Technologies

**Location:** Greater Noida, India

**Job Type:** Full-Time

**Experience:** 0–3 Years

## Job Summary

We are seeking a motivated and analytical Data Analyst to join our growing team. The candidate will analyze business data, generate insights, build dashboards, and support strategic decision-making.

## Key Responsibilities

- Analyze large datasets and identify business trends.
- Prepare dashboards and reports using Power BI or Tableau.
- Write SQL queries for data extraction and transformation.
- Collaborate with teams to understand reporting requirements.
- Create visual presentations for stakeholders.
- Monitor KPIs and support business decision-making.

## Required Skills

- Strong knowledge of SQL and Excel.
- Basic understanding of Python and data analysis libraries.
- Knowledge of Power BI or Tableau.
- Good communication and analytical skills.
- Attention to detail and problem-solving ability.

## Preferred Technical Stack

| Category      | Technologies               |
|---------------|----------------------------|
| Programming   | Python, SQL                |
| Visualization | Power BI, Tableau, Excel   |
| Database      | MySQL, PostgreSQL, MongoDB |

## **Benefits**

- Competitive salary package
- Career growth opportunities
- Professional work environment
- Learning and development support
